

FROM LEO TO GEO. ONE SPACECRAFT FAMILY

LEO high performance Precision built for demanding missions

A high-performance LEO spacecraft delivering the pointing performance, payload resources and mission lifetime required by advanced Earth Observation and critical space missions.

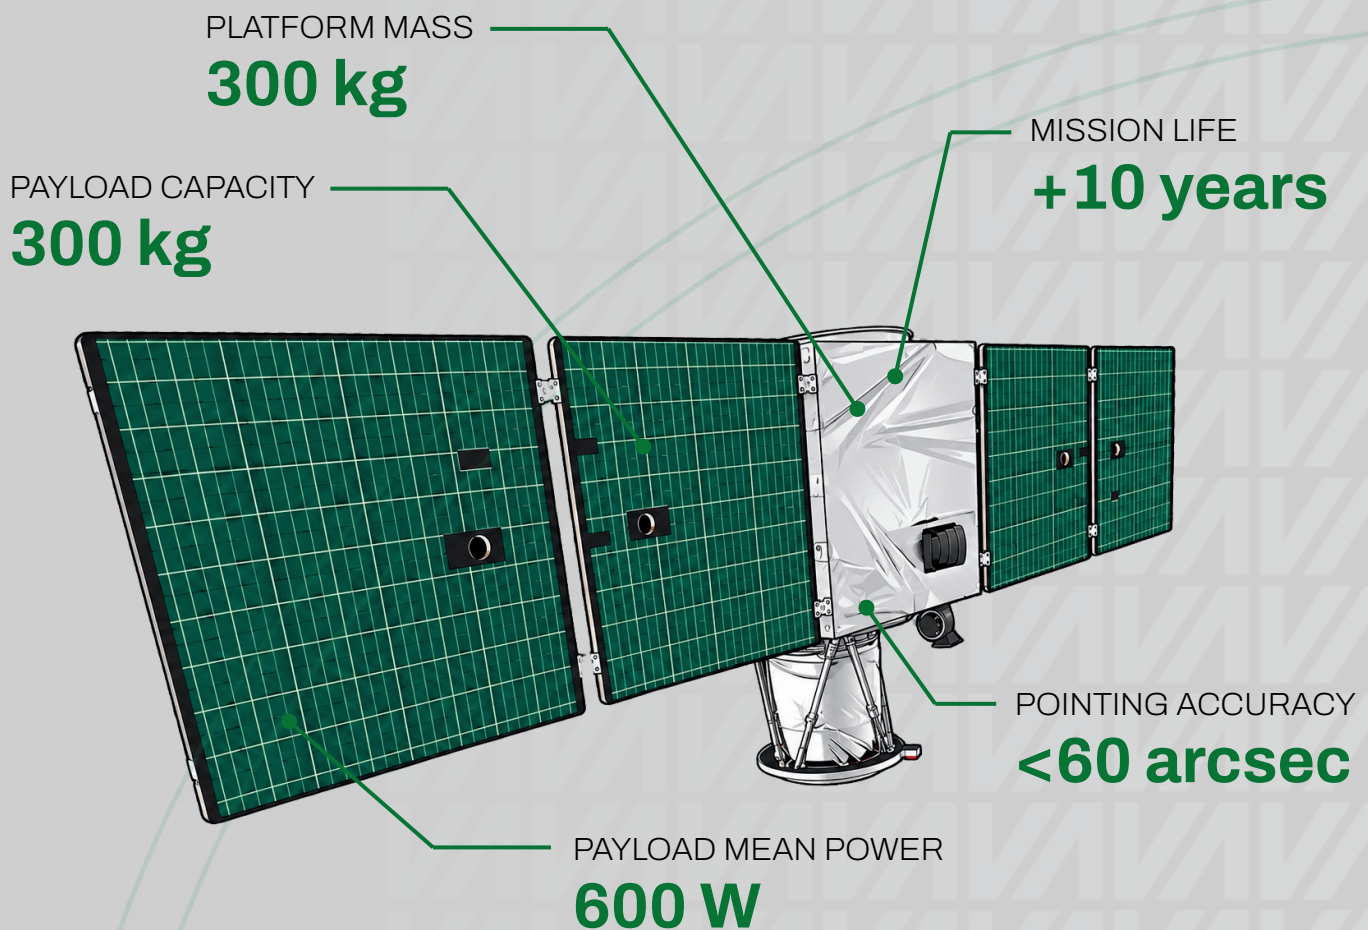

INVAP

Designed for sophisticated sensors and high-value operational missions

Engineered for precision

A fully redundant LEO platform combining precise attitude performance, long mission life and significant payload accommodation - providing a robust foundation for demanding sensors and critical missions.

MISSION APPLICATIONS

HIGH-RESOLUTION EO • SAR • ISR • SIGINT • SCIENTIFIC MISSIONS
• STRATEGIC MISSIONS
