

FROM LEO TO GEO, ONE SPACECRAFT FAMILY

SmallGEO

High capacity GEO, built for demanding missions

A high-performance geostationary spacecraft combining substantial payload resources, full electric propulsion and long operational life for advanced communications missions.

Engineered for high-value GEO missions

SmallGEO combines high payload power, long mission life and full electric propulsion in a flexible GEO architecture — providing a robust foundation for advanced telecommunications infrastructure.

PLATFORM MASS

~2.000 kg

POWER GENERATION

>10 kW

PAYLOAD CAPACITY

600 kg

PAYLOAD POWER

7.5 kW

MISSION LIFE

+15 years

MISSION APPLICATIONS

HTS • BROADBAND • GOVERNMENT SATCOM • SECURE COMMUNICATIONS
• REGIONAL CONNECTIVITY
